TECHNICAL SKILLS

Language & Frameworks	Python, SQL (basic)
AI Tools & LLMs	AI Prototyping (Replit, Google AI Studio, VS Code), Workflow pipelines (n8n), Voice Agents (VAPI.ai), Browser Automation (Comet)
Generative AI	Google Flow, HeyGen, Luma AI, Gemini, Gamma, Typecast

WORK EXPERIENCE

EddyTools Tech Solutions - Trainee Software Developer (Remote) Sept 2025 - Nov 2025

- Designed and tested n8n automation workflows: event invitation system (Google Sheets + Gmail, 20+ entries), daily AI news digest (GPT-4.1-mini summarizes 4-5 articles, 7AM email), and resume matcher (webhook, 10+ resumes) eliminated 100% manual data entry for events and fully automated resume screening
- Worked across full workflow lifecycle—from requirement to build to testing(n8n logs proof) to documentation—following Agile practices and SCRUM guidelines (daily attendance via status updates & realtime task tracking in SCRUM Sheet)

PROJECTS

Self-Evaluating Lesson Content Generator  Aug 2026 – Sep 2026

Agentic Workflow · Multi-Agent Pipeline (n8n) · LLM Evaluation · Output Validation

- Crafted an autonomous Generator-Evaluator pipeline that creates beginner-oriented lessons, evaluates them against an 8-point rubric, and automatically regenerates failed outputs with targeted remediation feedback
- Addressed the reliability gap in single-pass LLM generation by implementing a feedback-driven self-correction loop, where evaluation insights are fed back into the Generator to iteratively refine weak outputs
- Designed an interactive execution dashboard for attempt comparison, evaluation tracing, execution logs & TXT/Word/PDF export, enabling analysis of ambiguous prompts and AI interpretation behavior

Career-Pilot — An AI-Powered Career Guidance Platform  Feb 2026 – Mar 2026

Agentic AI Development · AI Prototyping · React · Express · API Integration · n8n (Docker)

- Built an AI-native full-stack platform combining AI resume-job matching (n8n webhook), live job search (Tavily API), 3-level skill assessments (8 tracks)& course explorer (100+ topics)
- Solved 4-tool fragmentation for job seekers (resume scanners, job boards, skill tests, course finders); Utilized Replit for rapid dev/deploy analyzing 20+ test resumes with JSON matches+gaps, providing 100% privacy with sessionStorage

Voice-Based Assistants  Jul 2025 - Oct 2025

Conversational AI · System Prompt Tuning · VAPI.ai · Deepgram · ElevenLabs · GPT 4o Mini

- Engineered 2 AI voice agents (I-Bot for interviews, Maria for collections) using a real-time pipeline (Vapi + Deepgram + GPT-4o Mini + ElevenLabs) to automate repetitive calling workflows with context-aware, adaptive dialogue
- Processed 106 calls (~103.5 mins) with ~59 sec avg duration and ~\$0.09/call cost; improved system robustness by testing 40+ failure scenarios (eg, silence timeouts, interruptions) and refining prompts and fallback logic.

EDUCATION

Vellore Institute of Technology Nov 2022 - Apr 2026

B. Tech Computer Science Engineering with Specialization in AI & ML - **8.51 CGPA**

CERTIFICATION COURSES

- AWS Solutions Architect- Associate Certification Program | **Ethnus** | Apr 2025
- Advanced Prompt Engineering with ChatGPT | **UpGrad** | May 2025
- The Complete Full-Stack Web Development Bootcamp | **Udemy** | May 2025
- Applied Machine Learning in Python | (Coursera) | Dec 2023
