Work Experience

EddyTools Tech Solutions - Trainee Software Developer (Remote) Sept 2025 - Nov 2025

- Built and tested n8n automation workflows for event invitations, AI news digests, and resume matching, automating event data entry and resume screening across 20+ entries and 10+ resumes.
- Managed the workflow lifecycle from requirements and development to testing and documentation, following Agile and SCRUM practices.

Projects

AI Video Briefs Aug 2025 - Aug 2026
Generative AI · Marketing Content · Visual Storytelling · Content Creation · Multimodal Prompting

- Created multiple AI-powered marketing, promotional, advertising, and explainer videos for internship hiring assessments, translating briefs into concepts, visual direction, prompts, and final video outputs.
- Delivered a 30-second GPT explainer for Guru99 with AI avatar, American English voiceover, branded captions, logo integration, and copyright-free music, following specified style, duration, and audience requirements.
- Crafted a 30-second Destination Wedding Promotional video for DestinationWeddingsIndia.com using AI-generated visuals assembled in Clipchamp; with cinematic storytelling, luxury brand positioning, and scene-by-scene content strategy
- Created an AI-driven brand storytelling video for ATZA Digitally's, combining character-based storytelling, AI-generated visuals, Hindi voice/lip-sync, B-roll, and short-form advertising structure.

Voice-Based Assistants Jul 2025 - Oct 2025
Conversational AI · Process Automation· Customer Support · AI Persona · VAPI.ai

- Engineered 2 AI voice agents (I-Bot for interviews, Maria for collections) using a real-time pipeline (Vapi + Deepgram + GPT-4o Mini + ElevenLabs) to automate repetitive calling workflows with context-aware, adaptive dialogue
- Processed 106 calls (∼103.5 mins) with ∼59 sec avg duration and ∼$0.09/call cost; improved system robustness by testing 40+ failure scenarios (eg, silence timeouts, interruptions) and refining prompts and fallback logic.

Career-Pilot — An AI-Powered Career Guidance Platform Feb 2026 – Mar 2026
Agentic AI Development · Prompt Design · React · Express · API Integration · n8n (Docker)

- Built an AI-native full-stack platform combining AI resume-job matching (n8n webhook), live job search (Tavily API), 3-level skill assessments (8 tracks)& course explorer (100+ topics)
- Solved 4-tool fragmentation for job seekers (resume scanners, job boards, skill tests, course finders); Utilized Replit for rapid dev/deploy analyzing 20+ test resumes with JSON matches+gaps, providing 100% privacy with sessionStorage
